

## CORE SERVICES

As an EPC (Engineering, Procurement, Construction) turn-key solution provider, Life Energy provides a complete end to end experience.

Design Engineering

Consultancy

Project Management

Site survey and energy auditing

Site optimization

Leading technology supply

Solution installation & integration

Operations & maintenance

Real-time remote monitoring

## ADVANTAGES OF RENEWABLE ENERGY GENERATION AND ENERGY EFFICIENCY FOR COMMERCIAL & RETAIL

### LOCK-IN FIXED ENERGY PRICE

Your business can hedge against rising energy costs by installing renewable energy generation systems which will allow you to fix your energy costs at lower than market rate for your energy requirements.

### QUICK RETURN ON INVESTMENT

Renewable energy generation plants have a life-span of 25 years, however they can give your business a relatively quick return on investment. For the first 5 years pay a below-market locked-in fixed rate for your energy, and for the next 20 years all energy generated is free

### LONG TERM ENERGY SECURITY

When you have best practices for renewable energy generation and energy efficiency, your investors and partners can rest easy in the knowledge that, in the event of a disruption to the grid power, your business and customers will remain unaffected

### ECO-FRIENDLY BUSINESS REPUTATION

Be a renewable energy leader in your company. Installing a renewable energy generation system into your business makes a visual statement to your customers and employees that you care about the environment and may give you the edge over your competitors

## ENERGY SOLUTIONS

### RENEWABLE ENERGY GENERATION

- On-Grid and Off-Grid Solar Photovoltaics
- Wind Generation
- Hybrid Systems
- CPV – Concentrated Photovoltaic
- CSP – Concentrated Solar Power

### ENERGY EFFICIENCY SOLUTIONS

- Building Energy Management systems
- Energy saving HVAC devices
- High-tech Thermal Barrier coatings
- LED technology
