

## CORE SERVICES

As an EPC (Engineering, Procurement, Construction) turn-key solution provider, Life Energy provides a complete end to end experience.

Design Engineering

Consultancy

Project Management

Site survey and energy auditing

Site optimization

Leading technology supply

Solution installation & integration

Operations & maintenance

Real-time remote monitoring

## ADVANTAGES OF RENEWABLE ENERGY GENERATION AND ENERGY EFFICIENCY FOR GOVERNMENT

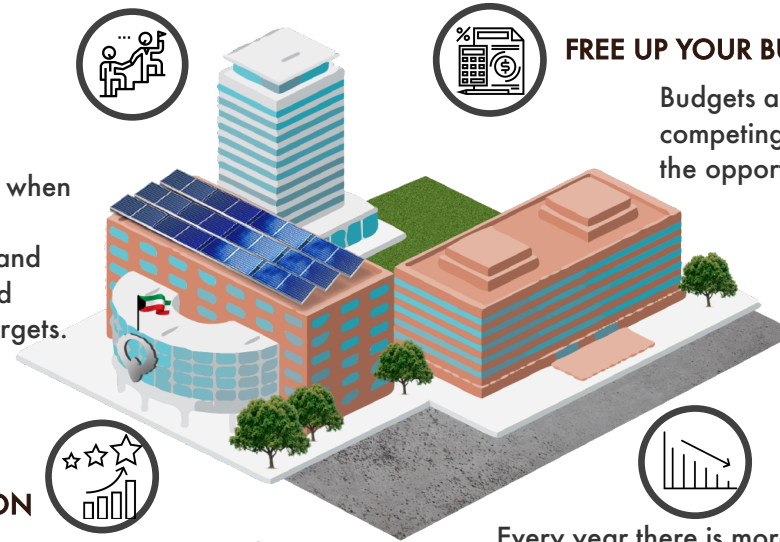

### SHOW ENVIRONMENTAL LEADERSHIP

It is strategic for government ministries to lead by example when it comes to environmental leadership, reducing carbon and greenhouse gas emissions and meeting renewable energy targets.

### INCREASE YOUR INTERNATIONAL REPUTATION

The utilisation of renewable energy generation and energy efficiency can set your government ministry apart from other ministries nationally as well as internationally. There are many awards each year that can make you stand out as a leading supporter of renewable energy resources.

### FREE UP YOUR BUDGET

Budgets are always tight with many competing needs and requirements. Take the opportunity to free up some of your energy related operating costs from your budget by installing renewable energy generation and energy efficiency devices in your ministry today.

### REDUCE YOUR EFFECT ON THE NATIONAL ENERGY GRID

Every year there is more load on the national energy grid. By utilising renewable energy generation solutions where possible, and more importantly installing energy efficiency devices to existing cooling and heating units making them more efficient, government ministries and entities can make a big difference and greatly reduce the load on the national energy grid.

### ENERGY SOLUTIONS

#### RENEWABLE ENERGY GENERATION

- On-Grid and Off-Grid Solar Photovoltaics
- Wind Generation
- Hybrid Systems
- CPV - Concentrated Photovoltaic
- CSP - Concentrated Solar Power

#### ENERGY EFFICIENCY SOLUTIONS

- Building Energy Management systems
- Energy saving HVAC devices
- High-tech Thermal Barrier coatings
- LED technology
